Submission of Opposition from Ross Wildbore

Re Tiga Minerals and Metals Ltd. WCRC: RC-2023-0046, GDC: LUN3154/23

The reason I am opposed to Tiga Minerals and Metals Ltd application for consent are as follows:

Hydrology/Water Management

Concerns regarding the creation of a central drain running towards the northwest corner.

The construction of two ponds called the "Clean Water Facility" in the northwest area.

The potential risk of these ponds introducing unwanted contaminants/sediments into neighbouring wetland.

Tiga's water management plan mentions discharge from Pond 4 into northern drain. This drain runs directly into neighbouring property and into an established "SNA" wetland.

Tiga's proposed creation of a post mining pond/wetland in this northwest corner is clearly a way of dealing with the potential mine pit void in mining zone 10.

Experts

I disagree with Tiga's paid experts regarding the effects of noise and visual disturbance and the effect of truck movements to/from site on the community.

In their statements they claim, in their opinion, theoretical effects will be "no more than minor", "Less than minor".

The experts don't live in our community, the experts aren't going to live next to the proposed mine 24/7.

WE ARE.

I request that this application is declined in its entirety.
