 Yes

My/our submission is that: (state in summary the nature of your submission. Clearly indicate whether you support or oppose the specific proposal, or wish to have amendments made, giving reasons)

- Industrial mining of the scale proposed in a populated rural area would have significant and widely distributed adverse effects on people, the community and the environment.
- The economic benefits of the proposal are uncertain. Community wellbeing and other environmental values should not be compromised in the pursuit of speculative economics.
- Adverse effects on community and individual wellbeing. SH6 is likely to become much more dangerous. Trucking noise & vibration would create stress and potential sleep loss for all living within earshot of SH6 – from early hours, all day and after dark, 7 days a week, and without respite on weekends and public holidays.
- Trucking impacts are more than minor. The risk of damage and cost of repair to the already fragile SH6 from the significant increase in trucking is high. Heavy truck movements at the scale proposed

I/we seek the following decision from the Local Authority:(give precise details)

I oppose wholeheartedly the proposal.
