

# Form 1: Application for Land Use Resource Consent

V3

Pursuant to Section 88 of the Resource Management Act 1991

PART A - APPLICANT'S DETAILS	
Full Name:	Grey District Council (Daniel Manchester)
Address for Service: (correspondence will be sent to this address, e.g. agent)	PO Box 382 Greymouth 7840
Telephone	037698611
Facsimile	
Email (all correspondence will be sent electronically unless stipulated in Part I - Checklist)	daniel@proformgroup.co.nz
Applicant is the <u>Owner</u> of the property (state whether owner, lessee, potential buyer etc.)	
Name and Address of Property Owner: (if different from above)	
Contact Details for Property Owner:	Telephone
	Email
<p>I hereby certify that, to the best of my knowledge and belief, the information given in this application is true and correct.</p> <p>I undertake to pay all actual and reasonable application costs incurred by the Grey District Council in processing the application regardless of whether or not the application is granted.</p> <p>In the event of a default in payment, the customer will be charged interest on any overdue amount at the rate of 1.5% per month from the due date until full payment is made, and shall repay Grey District Council on demand any monies which Grey District Council may expend to make good any failure by the customer to comply with the payment terms.</p> <p>If you do not make any payment when due, in addition to any other remedies, we may recover from you any costs, expenses or disbursements incurred by us in recovering money from you, including without limitation, debt collection agency fees and legal fees.</p>	
Applicant's Signature: (or person authorized to sign on applicant's behalf)	
Name: (please print)	Daniel Manchester Date: 1/4/24
<p><b>Please note:</b></p> <ul style="list-style-type: none"> <li>• Applications will not be received and processed until the minimum Deposit Fee is paid;</li> <li>• If the minimum Deposit Fee does not cover the full cost incurred by Council in processing the consent application(s), then the balance will be invoiced either on an interim basis, or at the time the decision on the consent application(s) is released</li> <li>• GDC reserves the right to suspend delivery of further goods and/or services if the terms of payment are not strictly adhered to by the Customer.</li> </ul>	

**PART B – PROPERTY DETAILS**

Address of Site: (give full details including street number)	'Not Defined Grey District' Bain Bay Track, West Coast
Legal Description: (Lot, DP number etc)	LINZ Parcel 3700336
Size of Property	est 7800 m2
Location (The area or site in which the activity is to occur is commonly, or generally, known as)	Mitchells Bay, Moana
Valuation Number (this is a 10 digit number and may be located on your rates demand eg. 25440/000.00).	No Valuation number in GIS data
What is the current use of the site and surrounding area? (rural, residential, commercial, natural)	Road, road reserve
What is the topography of the site? (flat/rolling etc)	Flat to slighty sloping
What vegetation types are on the site? (domestic lawns & gardens/pasture/indigenous forest/wetland etc)	grass, plantings, wetland
<b>SERVICING</b>	
Which services are supplied to the site	If yes, indicate how they are provided (i.e. reticulated, on-site, etc.)
Power	<del>Yes</del> / No      N/A
Telephone	<del>Yes</del> / No      N/A
Water	<del>Yes</del> / No      no water, hand sanitiser unti
Stormwater disposal method	<del>Yes</del> / No      Downpipe to ground spreader
Sewage treatment method	<del>Yes</del> / No      Dry Vault system
<b>ROADING</b>	
Transport	Please indicate existing and/or proposed access points to the subject site?
How will the site be accessed? (Please show on the site plan that will be attached).	Site is located on the Bain Bay track road hence easily accesible

**Part C – DESCRIPTION OF THE PROPOSAL**

**1. DETAILS OF THE PROPOSAL**

Describe in as much detail as possible, the nature and extent of the proposed activities, include the reasons for non-compliance with the District Plan, if this is known, i.e. new residential building that is located within the required setback from the road boundary.

Construction of new toilet, weather shelter, and bike stand for the visitors of Mitchells Bay. See the attached designs for location

The work will include installation of a dry vault system, construction of the toilet and shelter foundation, extended parking area and planting around the structures to help blend into the surrounding environment

under the Resource Management Act 1991:

Resource consent is required due to buildings (toilet and shelter) breaching rule 19.7.3.

A Form 4 - Affected Party Approval Form was submitted with the building consent and is attached as well

**2. PERMITTED ACTIVITIES**

List any other activities that are part of the proposal to which the application relates. The purpose of this question is to capture things which need permission under other regulations, outside the RMA. For example, building works that are not part of this resource consent but still need building consent (Building Act 2004).

**Part D – National Environmental Standard for Assessing and Managing Contaminants in Soil to Protect Human Health (NESCS):**

The NESCS applies to any piece of land on which an activity or industry described in the current edition of the Hazardous Activities and Industries List (*HAIL*) is, has been, or is more likely than not to have been undertaken. The current *HAIL* is attached to the back of this application form. The *HAIL* can also be found at the Ministry for the Environment’s website [www.mfe.govt.nz](http://www.mfe.govt.nz).

To help determine whether or not the *NESCS* will apply to your activity please answer the following questions:

	Yes	No
Is an activity described on the <i>HAIL</i> currently being undertaken on the piece of land to which this application applies?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Has an activity described on the <i>HAIL</i> ever been undertaken on the piece of land to which this application applies?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Is it more likely than not that an activity described on the <i>HAIL</i> is being or has been undertaken on the piece of land to which this application applies?	<input type="checkbox"/> <input type="checkbox"/>	<input checked="" type="checkbox"/> <input checked="" type="checkbox"/>

If ‘yes’ to ANY of the above, then the *NESCS* may apply. Please answer the following questions:

Activities	Yes	No
Is the activity you propose to undertake removing or replacing a fuel storage system or parts of it?	<input type="checkbox"/>	<input type="checkbox"/>
Is the activity you propose to undertake sampling soil	<input type="checkbox"/>	<input type="checkbox"/>
Is the activity you propose to undertake disturbing soil <ul style="list-style-type: none"> <li>○ Disturbance of soil more than 25m<sup>3</sup> per 500m<sup>2</sup>?</li> <li>○ Will the duration of the activity be longer than 2 months?</li> </ul>	<input type="checkbox"/> <input type="checkbox"/>	<input type="checkbox"/> <input type="checkbox"/>
Is the activity you propose to undertake subdividing land?	<input type="checkbox"/>	<input type="checkbox"/>
Is the activity you propose to undertake changing the use of the land?	<input type="checkbox"/>	<input type="checkbox"/>

If ‘Yes’ to ANY of the above activities, then the *NESCS* is likely to apply.

**PART E – PART 2 AND OTHER RELEVANT DOCUMENTS**

This is an assessment of the Part 2 matters Section 104(1)(b) other regulations relative to your proposal under the Resource Management Act 1991

**1. Please provide an assessment of the proposed activity against the relevant provisions of:**

- National Environmental Standards (NES)
- Other Regulations
- National Policy Statements (NPS)
- New Zealand Coastal Policy Statement
- Regional Policy Statement or Proposed Regional Policy Statement (RPS)

Notes to applicant to assist with answering this question – please specify below whether each of the following documents have been addressed or not, if not WHY?:

	Yes	No
Are any National Environmental Standards relevant – for example: NES for Telecommunication Facilities, NES for Electricity Transmission Activities or NES for Assessing and Managing Contaminants in Soil to Protect Human Health?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Are any National Policy Statements relevant- for example: NPS for Renewable Electricity Generation, NPS for Electricity Transmission or NPS for Coastal Policy Statement?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Is the Regional Policy Statement relevant to this proposal?	<input type="checkbox"/>	<input checked="" type="checkbox"/>

**If 'yes' to ANY of the above, then a full assessment of the relevant regulation shall be provided below.**

---

---

---

---

---

---

---

---

---

---

**2. Please provide an assessment of the proposed activity against the Grey District Plan**

Please pay particular attention of the Objectives and Policies of the District Plan, which are set out in the relevant Environmental Area Sections. The Grey District Plan is available on our website [www.greydc.govt.nz](http://www.greydc.govt.nz).

Please indicate by ticking the box of the relevant Environmental Area/s which apply to your proposal:

- |                          |                          |                           |                          |                               |
|--------------------------|--------------------------|---------------------------|--------------------------|-------------------------------|
| <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/>  | <input type="checkbox"/> | <input type="checkbox"/>      |
| Residential<br>(16)      | Township<br>(17)         | Rural-Residential<br>(18) | Rural<br>(19)            | Commercial/Industrial<br>(20) |

---

The activity will not be contrary to the objective and polices of the Grey District Plan for Rural-Residential Environment Area. The Toilet facility will be blended into the environment through design, material selection, cladding imagery, and planting. It will mitigate an issue of public using the area 'as a toilet' as their is no facility in the area.

**3. Provide an assessment of your proposed activity/activities against the matters set out in Part 2 (Part 2 of the RMA is attached to this application). Please assess EACH of the following Sections of Part 2:**

Section 5 (Purpose) – (Note: Key parts here are: sustainable management to provide for social, economic and cultural wellbeing and health and safety. Sustaining natural and physical resources and safeguarding the life supporting capacity of air water, soil and ecosystems).

The proposed site is at the entrance of a popular walking track and the boat ramp. This activity ensures sustainable management of the natural and physical resources.

The presence of an amenity on site will also ensure the surrounding area will be tidied.

Section 6 (Matters of National Importance) – (Note: The key words are, coastal environment, waterbodies, outstanding natural features and landscapes, significant indigenous vegetation, public access to coast and waterbodies, Maori culture, and historic heritage).

The proposed site is at the entrance of a popular walking track and the boat ramp. On the site but away from the proposed location is the waterways and wetland area with wild planting.

The development won't disturb the waterways, wetlands and wild planting and aims to help protect these areas by providing an amenity for the public as currently the area is misused with people trampling plants and leaving waste behind.

It is not unordinary to see this type of amenity in the area and positive effects far outweigh any adverse effects

Section 7 (Other Matters) – (Note: The two most common matters under this section are (c) and (f) but ensure the entire section is reviewed as to whether relevant).

There will be efficient use of the natural and physical resources

The amenity of the area will be enhanced due to the installation of the new toilet block

The quality of the surrounding area will be enhanced as the new toilet will provide a facility for the public to use therefore keeping the area tidy.

Section 8 (Treaty of Waitangi) – (Note: are there any culturally sensitive sites or areas near your proposal? Refer to planning maps).

None

**PART F - ASSESSMENT OF EFFECTS ON THE ENVIRONMENT (AEE)**

An AEE is an essential part of the application and if it is not provided Council cannot assess the application. This is required under Schedule 4 of the RMA. The AEE should discuss all the actual and potential effects of your proposed activity or structure on the environment. The questions below are intended as a guide, and the amount of detail provided must reflect the scale and nature of the effects. For example, if there are major effects arising from the proposal, a detailed analysis and discussion of these effects should also be included in the AEE. It may require the provision of information from specific experts (e.g a traffic engineer). If the effects of the proposal are very minor, then a less detailed AEE can be submitted.

Consider and explain the effects on others on your property and / or other properties (e.g. shading of their property, stormwater flow, increased noise). How can these effects be avoided, remedied or mitigated?

As the site is considered a recreational hub for the area, there are residential properties within 50m of the location. The presence of this amenity will minimise the effects on properties by various ways. A commercial lodge is located about 200m away from the location, this amenity will minimise the effects of users of the area by providing an amenity.

Storm water will discharge to the ground via a spreader and ground shaping and coil drainage will eliminate any run off onto neighbouring properties

Consider and explain the effects on the wider community (e.g. increased traffic generation). How can the effects be avoided, remedied or mitigated?

Effects on the wider community has been positive. The proposed toilet facility will service all the service all the existing draw cards such as the boat ramp, walking and bike tracks.

To ease parking issues the gravel area is being enlarged and the turning circles designed.

Consider and explain the effects on natural ecosystems (e.g. habitats for animals/ wetlands/ indigenous vegetation/waterways). How can these effects be avoided, remedied or mitigated?

The area of the section that the structures are being built on is grassed and gravel, there will be not effect on the waterways and wetland area.

Consider and explain the effects on the landscape and visual amenity of the environment (e.g. buildings seen from the coast, vegetation clearance). How can these effects be avoided, remedied or mitigated?

The toilet and shelter are small structures, which will be seen from the road.

It's normal to have toilets near recreational areas.

The proposed landscape will compliment the scenery of the area, The structures have been kept as small as possible and have been constructed with natural materials or will be clad in a design (wrap) that matches the surrounding environment.

Planting will be used to 'hide' the structures as much as possible

Consider and explain the effects on archaeological sites, historic buildings, notable trees or any other area with a recognized value (eg recreation or scientific area or site), and the effects on any culturally significant values associated with the area. How can these effects be avoided, remedied or mitigated?

The development will not effect any area mentioned above

Consider and explain any existing or potential natural hazards? How can the effects of these hazards be avoided, remedied or mitigated?

The area is prone to flooding, the location and height of the foundation has been considered to avoid 'overflow'. The selection of a fully sealed dry vault unit was also selected for this Purpose. The orientation of the structures has been made to avoid the prevailing wind when entering and exiting.

Are there any effects resulting from the proposed activity that should be monitored? How will the effects of the activity be monitored? Who will monitor these effects?

The possible effect of increased usage and misuse by freedom campers will be monitored by the existing process of local lodge communicating with the council.

Have you undertaken any consultation in relation to your proposal? If yes, please explain. Please attach any completed Approval of Affected Party forms and proof of consultation to your consent application.

Community consultation was undertaken with concept designs provided and a questionnaire that was sent to all local residents, the feedback from these was incorporated into the design. Further consultation was undertaken with the nearby lodge and specific property owners. A feedback summary spreadsheet and design brief is attached.

The reason for the application, and choosing this site are:

The location was selected as it near the entry/exit of the walking/cycle track and boat ramp. The area is used for parking which creates easy access.

Were other alternative sites considered? If yes, please explain.

Other locations within the site were considered but with feedback from the community it was changed to increase the distance from occupied properties.

Other sites were proposed by the community but these were on private land and not feasible.

State any additional effects of your activity here, and ways in which the effects can be avoided, remedied or mitigated. Continue on separate sheet if necessary.

None

**PART G – TERM OF CONSENT**

Is a specific term required for the consent being applied for (months, years or indefinite): .....

Note: If not specified then the term will be indefinite if the activity is legally given effect to within five years.

**PART H – ADDITIONAL/OTHER RESOURCE CONSENTS**

**Replacing an existing consent?**

The application shall be lodged with Council at least 6 months before that consent expires.

Provide an assessment of the value of your investment. You need to:

- Specify the value of investment of the activities/infrastructure that are reliant on the resource consents/s you are applying for here. This must be the 'book value' of the investment (not the replacement value).
- Include evidence that supports the assessment

	Yes	No
<b>Existing consents</b>		
Do you hold any additional consents for this activity?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
If yes, will these require variation or cancellation?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
<b>Other Consents</b>		
Is a building consent required?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
If yes, has this building consent been applied for?	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Are any additional Resource Consents or other authorizations required for your proposal and have they been applied for? For example, Regional Council or Department of Conservation concession.

Type of Consent	Consent Authority	Applied for	
		Yes	No
		<input type="checkbox"/>	<input type="checkbox"/>
		<input type="checkbox"/>	<input type="checkbox"/>
		<input type="checkbox"/>	<input type="checkbox"/>

**PART I – CHECKLIST**

Have you included the following:	Yes	No
✓ Completed application form, including a full description of the proposal and an assessment of effects on the environment which includes sufficient detail for Consent Authority and any other interested party to fully understand the effects of the proposed activity.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
✓ Resource consent fee (deposit)	<input type="checkbox"/>	<input type="checkbox"/>
✓ Certificate of Title (including copies of consent notices/existing easements etc - a copy of this can be obtained by Council for a fee)	<input type="checkbox"/>	<input type="checkbox"/>
✓ Completed and signed the HAIL sheet (back of application)	<input type="checkbox"/>	<input type="checkbox"/>
✓ Site plan	<input checked="" type="checkbox"/>	<input type="checkbox"/>
✓ Elevations	<input checked="" type="checkbox"/>	<input type="checkbox"/>
✓ Photographs	<input checked="" type="checkbox"/>	<input type="checkbox"/>
✓ Proof of Consultation	<input checked="" type="checkbox"/>	<input type="checkbox"/>
✓ Approval of affected party form(s) and signed site plans (owner(s) and occupier(s) of affected properties)	<input checked="" type="checkbox"/>	<input type="checkbox"/>
✓ Indicate here by ticking yes if you would like to see draft conditions prior to a decision being issued on your resource consent application. In making this request you agree to an extension of the statutory processing time limits pursuant to section 37 of the Resource Management Act 1991 in order to accommodate this request.	<input type="checkbox"/>	<input type="checkbox"/>
✓ Indicate here by ticking yes if you require paper copies (i.e. posted) of correspondence relating to this application.	<input type="checkbox"/>	<input type="checkbox"/>

**A supplementary application form may be required depending on your consent type. Please tick the forms that have been included with the application**

Form 1A: Hazardous Substances	<input type="checkbox"/>	Form 1D: Relocated Buildings	<input type="checkbox"/>
Form 1B: Commercial and/or Industrial Activities	<input type="checkbox"/>	Form 1E: Heritage Features	<input type="checkbox"/>
Form 1C: Signage	<input type="checkbox"/>	Form 1F: Historic Trees	<input type="checkbox"/>

## Copy of Part 2 of the RMA

### 5 Purpose

The purpose of this Act is to promote the sustainable management of natural and physical resources.

- 1) In this Act, **sustainable management** means managing the use, development, and protection of natural and physical resources in a way, or at a rate, which enables people and communities to provide for their social, economic, and cultural well-being and for their health and safety while—
  - a) sustaining the potential of natural and physical resources (excluding minerals) to meet the reasonably foreseeable needs of future generations; and
  - b) safeguarding the life-supporting capacity of air, water, soil, and ecosystems; and
  - c) avoiding, remedying, or mitigating any adverse effects of activities on the environment

### 6 Matters of national importance

In achieving the purpose of this Act, all persons exercising functions and powers under it, in relation to managing the use, development, and protection of natural and physical resources, shall recognise and provide for the following matters of national importance:

- (a) the preservation of the natural character of the coastal environment (including the coastal marine area), wetlands, and lakes and rivers and their margins, and the protection of them from inappropriate subdivision, use, and development:
- (b) the protection of outstanding natural features and landscapes from inappropriate subdivision, use, and development:
- (c) the protection of areas of significant indigenous vegetation and significant habitats of indigenous fauna:
- (d) the maintenance and enhancement of public access to and along the coastal marine area, lakes, and rivers:
- (e) the relationship of Maori and their culture and traditions with their ancestral lands, water, sites, waahi tapu, and other taonga:
- (f) the protection of historic heritage from inappropriate subdivision, use, and development:
- (g) the protection of protected customary rights.

### 7 Other matters

In achieving the purpose of this Act, all persons exercising functions and powers under it, in relation to managing the use, development, and protection of natural and physical resources, shall have particular regard to—

- (a) kaitiakitanga:
  - (aa) the ethic of stewardship:
  - (b) the efficient use and development of natural and physical resources:
- (ba) the efficiency of the end use of energy:
- (c) the maintenance and enhancement of amenity values:
- (d) intrinsic values of ecosystems:
- (e) *[Repealed]*
- (f) maintenance and enhancement of the quality of the environment:
- (g) any finite characteristics of natural and physical resources:
- (h) the protection of the habitat of trout and salmon:
- (i) the effects of climate change:
- (j) the benefits to be derived from the use and development of renewable energy

### 8 Treaty of Waitangi

In achieving the purpose of this Act, all persons exercising functions and powers under it, in relation to managing the use, development, and protection of natural and physical resources, shall take into account the principles of the [Treaty of Waitangi](#) (Te Tiriti o Waitangi).

## Grey District Council Hazardous Activities and Industries Checklist

Prior to any changes in the use of land including constructing/altering buildings, creating foundations, undertaking earthworks, soil sampling or subdivision, the National Environmental Standard (NES) for Assessing Contaminants in Soil to Protect Human Health requires the land owner to identify whether or not any of the activities listed below have previously, currently or are going to be undertaken on the site.

Further information on the NES and the Ministry for the Environment's Hazardous Activities and Industries List (below) can be found at [www.mfe.govt.nz](http://www.mfe.govt.nz).

Using information from the West Coast Regional Council, Grey District Council's property files, anecdotal evidence and any other reference, **read through the following list and please tick if the activity has previously occurred or will occur on the site.**

### Hazardous Activities and Industries List (HAIL)

Chemical manufacture, application and bulk storage	Y	N
Agrichemicals including commercial premises used by spray contractors for filling, storing or washing out tanks for agrichemical application		
Chemical manufacture, formulation or bulk storage		
Commercial analytical laboratory sites		
Corrosives including formulation or bulk storage		
Dry-cleaning plants including dry-cleaning premises or the bulk storage of dry-cleaning solvents		
Fertiliser manufacture or bulk storage		
Gasworks including the manufacture of gas from coal or oil feedstocks		
Livestock dip or spray race operations		
Paint manufacture or formulation (excluding retail paint stores)		
Persistent pesticide bulk storage or use including sport turfs, market gardens, orchards, glass houses or spray sheds		
Pest control including the premises of commercial pest control operators or any authorities that carry out pest control where bulk storage or preparation of pesticide occurs, including preparation of poisoned baits or filling or washing of tanks for pesticide application		
Pesticide manufacture (including animal poisons, insecticides, fungicides or herbicides) including the commercial manufacturing, blending, mixing or formulating of pesticides		
Petroleum or petrochemical industries including a petroleum depot, terminal, blending plant or refinery, or facilities for recovery, reprocessing or recycling petroleum-based materials, or bulk storage of petroleum or petrochemicals above or below ground		
Pharmaceutical manufacture including the commercial manufacture, blending, mixing or formulation of pharmaceuticals, including animal remedies or the manufacturing of illicit drugs with the potential for environmental discharges		
Printing including commercial printing using metal type, inks, dyes, or solvents (excluding photocopy shops)		
Skin or wool processing including a tannery or fellmongery, or any other commercial facility for hide curing, drying, scouring or finishing or storing wool or leather products		
Storage tanks or drums for fuel, chemicals or liquid waste		
Wood treatment or preservation including the commercial use of anti-sapstain chemicals during milling, or bulk storage of treated timber outside		

<b>Electrical and electronic works, power generation and transmission</b>	<b>Y</b>	<b>N</b>
Batteries including the commercial assembling, disassembling, manufacturing or recycling of batteries (but excluding retail battery stores,		
Electrical transformers including the manufacturing, repairing or disposing of electrical transformers or other heavy electrical equipment		
Electronics including the commercial manufacturing, reconditioning or recycling of computers, televisions and other electronic devices		
Power stations, substations or switchyards		
<b>Explosives and ordnances production, storage and use</b>	<b>Y</b>	<b>N</b>
Explosive or ordnance production, maintenance, dismantling, disposal, bulk storage or re-packaging		
Gun clubs or rifle ranges, including clay targets clubs that use lead munitions outdoors		
Training areas set aside exclusively or primarily for the detonation of explosive ammunition		
<b>Metal extraction, refining and reprocessing, storage and use</b>	<b>Y</b>	<b>N</b>
Abrasive blasting including abrasive blast cleaning (excluding cleaning carried out in fully enclosed booths) or the disposal of abrasive blasting material		
Foundry operations including the commercial production of metal products by injecting or pouring molten metal into moulds		
Metal treatment or coating including polishing, anodising, galvanising, pickling, electroplating, or heat treatment or finishing using cyanide compounds		
Metalliferous ore processing including the chemical or physical extraction of metals, including smelting, refining, fusing or refining metals		
Engineering workshops with metal fabrication		
<b>Mineral extraction, refining and reprocessing, storage and use</b>	<b>Y</b>	<b>N</b>
Asbestos products manufacture or disposal including sites with buildings containing asbestos products known to be in a deteriorated condition		
Asphalt or bitumen manufacture or bulk storage (excluding single-use sites used by a mobile asphalt plant)		
Cement or lime manufacture using a kiln including the storage of wastes from the manufacturing process		
Commercial concrete manufacture or commercial cement storage		
Coal or coke yards		
Hydrocarbon exploration or production including well sites or flare pits		
Mining industries (excluding gravel extraction) including exposure of faces or release of groundwater containing hazardous contaminants, or the storage of hazardous wastes including waste dumps or dam tailings		
<b>Vehicle refuelling, service and repair</b>	<b>Y</b>	<b>N</b>
Airports including fuel storage, workshops, washdown areas, or fire practice areas		
Brake lining manufacturers, repairers or recyclers		
Engine reconditioning workshops		
Motor vehicle workshops		
Port activities including dry docks or marine vessel maintenance facilities		

Railway yards including goods-handling yards, workshops, refuelling facilities or maintenance areas		
Service stations including retail or commercial refuelling facilities		
Transport depots or yards including areas used for refuelling or the bulk storage of hazardous substances		
<b>Cemeteries and waste recycling, treatment and disposal</b>	<b>Y</b>	<b>N</b>
Cemeteries		
Drum or tank reconditioning or recycling		
Landfill sites		
Scrap yards including automotive dismantling, wrecking or scrap metal yards		
Waste disposal to land (excluding where biosolids have been used as soil conditioners)		
Waste recycling or waste or wastewater treatment		
<b>Any land that has been subject to the migration of hazardous substances from adjacent land in sufficient quantity that it could be a risk to human health or the environment</b>		
<b>Any other land that has been subject to the intentional or accidental release of a hazardous substance in sufficient quantity that it could be a risk to human health or the environment</b>		

If you have answered yes to any of the above, the NES applies to the land. Please consult the NES and if you have any questions, contact the Planning Department.

**Statement:**

I hereby certify that to the best of my knowledge the information given is true and correct.
