

Form 1: Application for Land Use Resource Consent

V3

Pursuant to Section 88 of the Resource Management Act 1991

PART A - APPLICANT'S DETAILS	
Full Name:	Design Workshop Architecture
Address for Service: (correspondence will be sent to this address, e.g. agent)	5, 1008 Ferry Road, Ferrymead, Christchurch
Telephone	03 3843565
Facsimile	
Email (all correspondence will be sent electronically unless stipulated in <i>Part I - Checklist</i>)	team@dwa.co.nz
Applicant is the <u>owner</u> of the property <i>(state whether owner, lessee, potential buyer etc.)</i>	
Name and Address of Property Owner: (if different from above)	Brown & Son Construction 2009 Ltd Nathan Brown
Contact Details for Property Owner:	Telephone
	Email
I hereby certify that, to the best of my knowledge and belief, the information given in this application is true and correct. I undertake to pay all actual and reasonable application costs incurred by the Grey District Council in processing the application regardless of whether or not the application is granted. In the event of a default in payment, the customer will be charged interest on any overdue amount at the rate of 1.5% per month from the due date until full payment is made, and shall repay Grey District Council on demand any monies which Grey District Council may expend to make good any failure by the customer to comply with the payment terms. If you do not make any payment when due, in addition to any other remedies, we may recover from you any costs, expenses or disbursements incurred by us in recovering money from you, including without limitation, debt collection agency fees and legal fees.	
Applicant's Signature: (or person authorized to sign on applicant's behalf)	Design Workshop Architecture Ltd
Name: (please print)	Deva Barlow-Smith Date: 15/04/2024
Please note: <ul style="list-style-type: none"> • Applications will not be received and processed until the minimum Deposit Fee is paid; • If the minimum Deposit Fee does not cover the full cost incurred by Council in processing the consent application(s), then the balance will be invoiced either on an interim basis, or at the time the decision on the consent application(s) is released • GDC reserves the right to suspend delivery of further goods and/or services if the terms of payment are not strictly adhered to by the Customer. 	

PART B – PROPERTY DETAILS	
Address of Site: <small>(give full details including street number)</small>	14-16 Doyle Street, Greymouth
Legal Description: <small>(Lot, DP number etc)</small>	Lot 4 DP 3326 Lot 2 DP 415
Size of Property	1524m ²
Location <small>(The area or site in which the activity is to occur is commonly, or generally, known as)</small>	Blaketown
Valuation Number <small>(this is a 10 digit number and may be located on your rates demand eg. 25440/000.00).</small>	14 Doyle St - 25640/377.00 16 Doyle St - 25640/376.00
What is the current use of the site and surrounding area? <small>(rural, residential, commercial, natural)</small>	Residential
What is the topography of the site? <small>(flat/rolling etc)</small>	Flat
What vegetation types are on the site? <small>(domestic lawns & gardens/pasture/indigenous forest/wetland etc)</small>	Domestic lawns & gardens
SERVICING	
Which services are supplied to the site	If yes, indicate how they are provided (i.e. reticulated, on-site, etc.)
Power	Yes / No
Telephone	Yes / No
Water	Yes / No
Stormwater disposal method	Yes / No
Sewage treatment method	Yes / No
ROADING	
Transport	Please indicate existing and/or proposed access points to the subject site?
How will the site be accessed? <small>(Please show on the site plan that will be attached).</small>	One vehicle crossing on 16 Doyle Street + one footpath on 14 Doyle Street

Part C – DESCRIPTION OF THE PROPOSAL

1. DETAILS OF THE PROPOSAL

Describe in as much detail as possible, the nature and extent of the proposed activities, include the reasons for non-compliance with the District Plan, if this is known, i.e. new residential building that is located within the required setback from the road boundary.

A land use Resource Consent is sought to build 8 Accessible Residential Dwellings, 3 attached 2 block units and 2 detached units on this site.
 The site breaches the road boundary setback and doesn't achieve the minimum site area.
 The dwelling has been designed to comply as much as possible. This includes setbacks, landscaping, layout, design and fencing requirements.
 Architectural plans including a Site Plan, Floor Plan & Elevations are attached as Appendix.

2. PERMITTED ACTIVITIES

List any other activities that are part of the proposal to which the application relates. The purpose of this question is to capture things which need permission under other regulations, outside the RMA. For example, building works that are not part of this resource consent but still need building consent (Building Act 2004).

Chapter 16 Residential Environmental Areas - 16.7 Rules - 16.7.4 Activity Status Tables - 16.7.4.i.a
 Permitted Activities: Minimum building setback from road boundaries is 4.5 meters.
 The proposed site encroaches from approximately 2.4m to 2.7m into the road boundary setback.

Chapter 16 Residential Environmental Areas - 16.7 Rules - 16.7.2 Activity Status Tables - 16.7.2.i.a
 Permitted Activities: Minimum net site area is 350m² exclusive of access except a) 300m² where two or more adjoining sites are developed. The proposed site areas range from 130m² to 180m².

Part D – National Environmental Standard for Assessing and Managing Contaminants in Soil to Protect Human Health (NESCS):

The NESCS applies to any piece of land on which an activity or industry described in the current edition of the Hazardous Activities and Industries List (*HAIL*) is, has been, or is more likely than not to have been undertaken. The current *HAIL* is attached to the back of this application form. The *HAIL* can also be found at the Ministry for the Environment’s website www.mfe.govt.nz.

To help determine whether or not the NESCS will apply to your activity please answer the following questions:

	Yes	No
Is an activity described on the <i>HAIL</i> currently being undertaken on the piece of land to which this application applies?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Has an activity described on the <i>HAIL</i> ever been undertaken on the piece of land to which this application applies?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Is it more likely than not that an activity described on the <i>HAIL</i> is being or has been undertaken on the piece of land to which this application applies?	<input type="checkbox"/> <input type="checkbox"/>	<input checked="" type="checkbox"/> <input type="checkbox"/>

If ‘yes’ to ANY of the above, then the NESCS may apply. Please answer the following questions:

Activities	Yes	No
Is the activity you propose to undertake removing or replacing a fuel storage system or parts of it?	<input type="checkbox"/>	<input type="checkbox"/>
Is the activity you propose to undertake sampling soil	<input type="checkbox"/>	<input type="checkbox"/>
Is the activity you propose to undertake disturbing soil <ul style="list-style-type: none"> ○ Disturbance of soil more than 25m³ per 500m²? ○ Will the duration of the activity be longer than 2 months? 	<input type="checkbox"/> <input type="checkbox"/>	<input type="checkbox"/> <input type="checkbox"/>
Is the activity you propose to undertake subdividing land?	<input type="checkbox"/>	<input type="checkbox"/>
Is the activity you propose to undertake changing the use of the land?	<input type="checkbox"/>	<input type="checkbox"/>

If ‘Yes’ to ANY of the above activities, then the NESCS is likely to apply.

3. Provide an assessment of your proposed activity/activities against the matters set out in Part 2 (Part 2 of the RMA is attached to this application). Please assess EACH of the following Sections of Part 2:

Section 5 (Purpose) – (Note: Key parts here are: sustainable management to provide for social, economic and cultural wellbeing and health and safety. Sustaining natural and physical resources and safeguarding the life supporting capacity of air water, soil and ecosystems).

5 Purpose

The purpose of this Act is to promote the sustainable management of natural and physical resources.

1) In this Act, sustainable management means managing the use, development, and protection of natural and physical resources in a way, or at a rate, which enables people and communities to provide for their social, economic, and cultural well-being and for their health and safety while—

a) sustaining the potential of natural and physical resources (excluding minerals) to meet the reasonably foreseeable needs of future generations; and

- There is very little excavating being proposed on this site, only excavating will be of the foundation and driveway. Any resources on this site will be used for landscaping if taken out from the ground.

b) safeguarding the life-supporting capacity of air, water, soil, and ecosystems; and

- There is no existing eco-systems on these sites, the proposed landscaping will add eco systems etc on the site.

c) avoiding, remedying, or mitigating any adverse effects of activities on the environment

- On the existing site there is only 1 existing tree, with the proposed landscaping plan we intend on planting a variety of plants that is keeping in with the surrounding environment.

Section 6 (Matters of National Importance) – (Note: The key words are, coastal environment, waterbodies, outstanding natural features and landscapes, significant indigenous vegetation, public access to coast and waterbodies, Maori culture, and historic heritage).

6 Matters of national importance

In achieving the purpose of this Act, all persons exercising functions and powers under it, in relation to managing the use, development, and protection of natural and physical resources, shall recognise and provide for the following matters of national importance:

(a) the preservation of the natural character of the coastal environment (including the coastal marine area), wetlands, and lakes and rivers and their margins, and the protection of them from inappropriate subdivision, use, and development:

- The proposed units are keeping in with the neighbours / surroundings as they are only single storey and not 2 storey high, this will ensure no views of the McLean Domain and the Grey River will not be blocked from this development

(b) the protection of outstanding natural features and landscapes from inappropriate subdivision, use, and development:

- Natural features on this site has been proposed in areas that are along the boundary, planting in the landscaped areas will be in keeping with the surroundings, and ensures that where possible is planted out instead of using hard standing areas.

(c) the protection of areas of significant indigenous vegetation and significant habitats of indigenous fauna:

- This development is not located on any reserves etc, the proposed landscaping will encourage new habitats to be developed.

(d) the maintenance and enhancement of public access to and along the coastal marine area, lakes, and rivers:

- All residents can park on the site, there will be no blocking to these areas as stated.

(e) the relationship of Maori and their culture and traditions with their ancestral lands, water, sites, waahi tapu, and other taonga:

- N/A

(f) the protection of historic heritage from inappropriate subdivision, use, and development:

- N/A

(g) the protection of protected customary rights.

- N/A

Section 7 (Other Matters) – (Note: The two most common matters under this section are (c) and (f) but ensure the entire section is reviewed as to whether relevant).

7 Other matters

In achieving the purpose of this Act, all persons exercising functions and powers under it, in relation to managing the use, development, and protection of natural and physical resources, shall have particular regard to—

- (a) kaitiakitanga:
 - Any eco-systems will be protected if found, we are providing new eco-systems with the planting.
- (aa) the ethic of stewardship:
 - Any resources used and affected on the site, will be used in a way to benefit the site where possible.
- (b) the efficient use and development of natural and physical resources:
 - As much as possible the resources on the site will be re-used on the site for another use if possible.
- (ba) the efficiency of the end use of energy:
 - Where possible reducing the amount of rubbish provided by demolition and building, being resourceful and where possible using the resources on the site in an environmental way, to reduce the amount of landfill.
- (c) the maintenance and enhancement of amenity values:
 - Planting will be planted along the boundaries / street frontage which will create to the pleasantness and attractiveness.
- (d) intrinsic values of ecosystems:
 - N/A
- (f) maintenance and enhancement of the quality of the environment:
 - Enhancement of the environment, with the proposed landscaping adding new eco systems to the area.
- (g) any finite characteristics of natural and physical resources:
 - Planting will add characteristics to the neighbourhood and environment surroundings.
- (h) the protection of the habitat of trout and salmon:
 - N/A
- (i) the effects of climate change:
 - This development is using standard resources, the basic of needs.
- (j) the benefits to be derived from the use and development of renewable energy
 - N/A

Section 8 (Treaty of Waitangi) – (Note: are there any culturally sensitive sites or areas near your proposal? Refer to planning maps).

8 Treaty of Waitangi

In achieving the purpose of this Act, all persons exercising functions and powers under it, in relation to managing the use, development, and protection of natural and physical resources, shall take into account the principles of the Treaty of Waitangi (Te Tiriti o Waitangi)

N/A, 14 -16 Doyle Street is note located on a sensitive site or near a site. Only backs onto the McLean Domain

PART F - ASSESSMENT OF EFFECTS ON THE ENVIRONMENT (AEE)

An AEE is an essential part of the application and if it is not provided Council cannot assess the application. This is required under Schedule 4 of the RMA. The AEE should discuss all the actual and potential effects of your proposed activity or structure on the environment. The questions below are intended as a guide, and the amount of detail provided must reflect the scale and nature of the effects. For example, if there are major effects arising from the proposal, a detailed analysis and discussion of these effects should also be included in the AEE. It may require the provision of information from specific experts (e.g a traffic engineer). If the effects of the proposal are very minor, then a less detailed AEE can be submitted.

Consider and explain the effects on others on your property and / or other properties (e.g. shading of their property, stormwater flow, increased noise). How can these effects be avoided, remedied or mitigated?

N/A/m there is no shading of property (no recession plane breaches)
 Please see attached AEE.

Consider and explain the effects on the wider community (e.g. increased traffic generation). How can the effects be avoided, remedied or mitigated?

The residents of this development have on site parking, no additional parking will be added to the street. Only when residents have visitors. As the site is located in an area that is more like a dead end, only residents will be driving around this area.
 Please see attached AEE.

Consider and explain the effects on natural ecosystems (e.g. habitats for animals/ wetlands/ indigenous vegetation/waterways). How can these effects be avoided, remedied or mitigated?

Landscaping and Planting added on this site encourage new eco systems and habitats.
 Please see attached AEE.

Consider and explain the effects on the landscape and visual amenity of the environment (e.g. buildings seen from the coast, vegetation clearance). How can these effects be avoided, remedied or mitigated?

Landscaping added along boundaries / road frontage gives visual amenity
 Please see attached AEE.

Consider and explain the effects on archaeological sites, historic buildings, notable trees or any other area with a recognized value (eg recreation or scientific area or site), and the effects on any culturally significant values associated with the area. How can these effects be avoided, remedied or mitigated?

N/A, this site is not located on an archaeological, historic site and does not have historic trees.

Consider and explain any existing or potential natural hazards? How can the effects of these hazards be avoided, remedied or mitigated?

N/A, I believe there is no existing or potential natural hazards on this site.

Are there any effects resulting from the proposed activity that should be monitored? How will the effects of the activity be monitored? Who will monitor these effects?

N/A

Have you undertaken any consultation in relation to your proposal? If yes, please explain. Please attach any completed Approval of Affected Party forms and proof of consultation to your consent application.

No.

The reason for the application, and choosing this site are:

A land use Resource Consent is sought to build 8 Accessible Residential Dwellings, 3 attached 2 block units and 2 detached units on this site.
 The site breaches the road boundary setback and doesn't achieve the minimum site area.
 The dwelling has been designed to comply as much as possible. This includes setbacks, landscaping, layout, design and fencing requirements.
 Architectural plans including a Site Plan, Floor Plan & Elevations are attached as Appendix.

Choosing these sites, because of the great amenities in the area of the natural environment such as the McLean Domain and the Grey River and being able to combine to sites together to create this small development.

Were other alternative sites considered? If yes, please explain.

No.

State any additional effects of your activity here, and ways in which the effects can be avoided, remedied or mitigated.
Continue on separate sheet if necessary.

PART G – TERM OF CONSENT

Is a specific term required for the consent being applied for (months, years or indefinite): indefinite

Note: If not specified then the term will be indefinite if the activity is legally given effect to within five years.

PART H – ADDITIONAL/OTHER RESOURCE CONSENTS

Replacing an existing consent?

The application shall be lodged with Council at least 6 months before that consent expires.

Provide an assessment of the value of your investment. You need to:

- Specify the value of investment of the activities/infrastructure that are reliant on the resource consents/s you are applying for here. This must be the 'book value' of the investment (not the replacement value).
- Include evidence that supports the assessment

	Yes	No
Existing consents		
Do you hold any additional consents for this activity?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
If yes, will these require variation or cancellation?	<input type="checkbox"/>	<input type="checkbox"/>
Other Consents		
Is a building consent required?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
If yes, has this building consent been applied for?	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Are any additional Resource Consents or other authorizations required for your proposal and have they been applied for? For example, Regional Council or Department of Conservation concession.

Type of Consent	Consent Authority	Applied for	
		Yes	No
		<input type="checkbox"/>	<input checked="" type="checkbox"/>
		<input type="checkbox"/>	<input type="checkbox"/>
		<input type="checkbox"/>	<input type="checkbox"/>

PART I – CHECKLIST

Have you included the following:	Yes	No
✓ Completed application form, including a full description of the proposal and an assessment of effects on the environment which includes sufficient detail for Consent Authority and any other interested party to fully understand the effects of the proposed activity.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
✓ Resource consent fee (deposit)	<input type="checkbox"/>	<input checked="" type="checkbox"/>
✓ Certificate of Title (including copies of consent notices/existing easements etc - a copy of this can be obtained by Council for a fee)	<input type="checkbox"/>	<input type="checkbox"/>
✓ Completed and signed the HAIL sheet (back of application)	<input type="checkbox"/>	<input checked="" type="checkbox"/>
✓ Site plan	<input checked="" type="checkbox"/>	<input type="checkbox"/>
✓ Elevations	<input checked="" type="checkbox"/>	<input type="checkbox"/>
✓ Photographs	<input type="checkbox"/>	<input checked="" type="checkbox"/>
✓ Proof of Consultation	<input type="checkbox"/>	<input checked="" type="checkbox"/>
✓ Approval of affected party form(s) and signed site plans (owner(s) and occupier(s) of affected properties)	<input type="checkbox"/>	<input checked="" type="checkbox"/>
✓ Indicate here by ticking yes if you would like to see draft conditions prior to a decision being issued on your resource consent application. In making this request you agree to an extension of the statutory processing time limits pursuant to section 37 of the Resource Management Act 1991 in order to accommodate this request.	<input type="checkbox"/>	<input checked="" type="checkbox"/>
✓ Indicate here by ticking yes if you require paper copies (i.e. posted) of correspondence relating to this application.	<input type="checkbox"/>	<input checked="" type="checkbox"/>

A supplementary application form may be required depending on your consent type. Please tick the forms that have been included with the application

Form 1A: Hazardous Substances	<input type="checkbox"/>	Form 1D: Relocated Buildings	<input type="checkbox"/>
Form 1B: Commercial and/or Industrial Activities	<input type="checkbox"/>	Form 1E: Heritage Features	<input type="checkbox"/>
Form 1C: Signage	<input type="checkbox"/>	Form 1F: Historic Trees	<input type="checkbox"/>

Copy of Part 2 of the RMA

5 Purpose

The purpose of this Act is to promote the sustainable management of natural and physical resources.

- 1) In this Act, **sustainable management** means managing the use, development, and protection of natural and physical resources in a way, or at a rate, which enables people and communities to provide for their social, economic, and cultural well-being and for their health and safety while—
 - a) sustaining the potential of natural and physical resources (excluding minerals) to meet the reasonably foreseeable needs of future generations; and
 - b) safeguarding the life-supporting capacity of air, water, soil, and ecosystems; and
 - c) avoiding, remedying, or mitigating any adverse effects of activities on the environment

6 Matters of national importance

In achieving the purpose of this Act, all persons exercising functions and powers under it, in relation to managing the use, development, and protection of natural and physical resources, shall recognise and provide for the following matters of national importance:

- (a) the preservation of the natural character of the coastal environment (including the coastal marine area), wetlands, and lakes and rivers and their margins, and the protection of them from inappropriate subdivision, use, and development:
- (b) the protection of outstanding natural features and landscapes from inappropriate subdivision, use, and development:
- (c) the protection of areas of significant indigenous vegetation and significant habitats of indigenous fauna:
- (d) the maintenance and enhancement of public access to and along the coastal marine area, lakes, and rivers:
- (e) the relationship of Maori and their culture and traditions with their ancestral lands, water, sites, waahi tapu, and other taonga:
- (f) the protection of historic heritage from inappropriate subdivision, use, and development:
- (g) the protection of protected customary rights.

7 Other matters

In achieving the purpose of this Act, all persons exercising functions and powers under it, in relation to managing the use, development, and protection of natural and physical resources, shall have particular regard to—

- (a) kaitiakitanga:
 - (aa) the ethic of stewardship:
 - (b) the efficient use and development of natural and physical resources:
- (ba) the efficiency of the end use of energy:
- (c) the maintenance and enhancement of amenity values:
- (d) intrinsic values of ecosystems:
- (e) *[Repealed]*
- (f) maintenance and enhancement of the quality of the environment:
- (g) any finite characteristics of natural and physical resources:
- (h) the protection of the habitat of trout and salmon:
- (i) the effects of climate change:
- (j) the benefits to be derived from the use and development of renewable energy

8 Treaty of Waitangi

In achieving the purpose of this Act, all persons exercising functions and powers under it, in relation to managing the use, development, and protection of natural and physical resources, shall take into account the principles of the [Treaty of Waitangi](#) (Te Tiriti o Waitangi).

Grey District Council Hazardous Activities and Industries Checklist

Prior to any changes in the use of land including constructing/altering buildings, creating foundations, undertaking earthworks, soil sampling or subdivision, the National Environmental Standard (NES) for Assessing Contaminants in Soil to Protect Human Health requires the land owner to identify whether or not any of the activities listed below have previously, currently or are going to be undertaken on the site.

Further information on the NES and the Ministry for the Environment's Hazardous Activities and Industries List (below) can be found at www.mfe.govt.nz.

Using information from the West Coast Regional Council, Grey District Council's property files, anecdotal evidence and any other reference, **read through the following list and please tick if the activity has previously occurred or will occur on the site.**

Hazardous Activities and Industries List (HAIL)

Chemical manufacture, application and bulk storage	Y	N
Agrichemicals including commercial premises used by spray contractors for filling, storing or washing out tanks for agrichemical application		X
Chemical manufacture, formulation or bulk storage		X
Commercial analytical laboratory sites		X
Corrosives including formulation or bulk storage		X
Dry-cleaning plants including dry-cleaning premises or the bulk storage of dry-cleaning solvents		X
Fertiliser manufacture or bulk storage		X
Gasworks including the manufacture of gas from coal or oil feedstocks		X
Livestock dip or spray race operations		X
Paint manufacture or formulation (excluding retail paint stores)		X
Persistent pesticide bulk storage or use including sport turfs, market gardens, orchards, glass houses or spray sheds		X
Pest control including the premises of commercial pest control operators or any authorities that carry out pest control where bulk storage or preparation of pesticide occurs, including preparation of poisoned baits or filling or washing of tanks for pesticide application		X
Pesticide manufacture (including animal poisons, insecticides, fungicides or herbicides) including the commercial manufacturing, blending, mixing or formulating of pesticides		X
Petroleum or petrochemical industries including a petroleum depot, terminal, blending plant or refinery, or facilities for recovery, reprocessing or recycling petroleum-based materials, or bulk storage of petroleum or petrochemicals above or below ground		X
Pharmaceutical manufacture including the commercial manufacture, blending, mixing or formulation of pharmaceuticals, including animal remedies or the manufacturing of illicit drugs with the potential for environmental discharges		X
Printing including commercial printing using metal type, inks, dyes, or solvents (excluding photocopy shops)		X
Skin or wool processing including a tannery or fellmongery, or any other commercial facility for hide curing, drying, scouring or finishing or storing wool or leather products		X
Storage tanks or drums for fuel, chemicals or liquid waste		X
Wood treatment or preservation including the commercial use of anti-sapstain chemicals during milling, or bulk storage of treated timber outside		X

Electrical and electronic works, power generation and transmission	Y	N
Batteries including the commercial assembling, disassembling, manufacturing or recycling of batteries (but excluding retail battery stores,		X
Electrical transformers including the manufacturing, repairing or disposing of electrical transformers or other heavy electrical equipment		X
Electronics including the commercial manufacturing, reconditioning or recycling of computers, televisions and other electronic devices		X
Power stations, substations or switchyards		X
Explosives and ordnances production, storage and use	Y	N
Explosive or ordinance production, maintenance, dismantling, disposal, bulk storage or re-packaging		X
Gun clubs or rifle ranges, including clay targets clubs that use lead munitions outdoors		X
Training areas set aside exclusively or primarily for the detonation of explosive ammunition		X
Metal extraction, refining and reprocessing, storage and use	Y	N
Abrasive blasting including abrasive blast cleaning (excluding cleaning carried out in fully enclosed booths) or the disposal of abrasive blasting material		X
Foundry operations including the commercial production of metal products by injecting or pouring molten metal into moulds		X
Metal treatment or coating including polishing, anodising, galvanising, pickling, electroplating, or heat treatment or finishing using cyanide compounds		X
Metalliferous ore processing including the chemical or physical extraction of metals, including smelting, refining, fusing or refining metals		X
Engineering workshops with metal fabrication		X
Mineral extraction, refining and reprocessing, storage and use	Y	N
Asbestos products manufacture or disposal including sites with buildings containing asbestos products known to be in a deteriorated condition		X
Asphalt or bitumen manufacture or bulk storage (excluding single-use sites used by a mobile asphalt plant)		X
Cement or lime manufacture using a kiln including the storage of wastes from the manufacturing process		X
Commercial concrete manufacture or commercial cement storage		X
Coal or coke yards		X
Hydrocarbon exploration or production including well sites or flare pits		X
Mining industries (excluding gravel extraction) including exposure of faces or release of groundwater containing hazardous contaminants, or the storage of hazardous wastes including waste dumps or dam tailings		X
Vehicle refuelling, service and repair	Y	N
Airports including fuel storage, workshops, washdown areas, or fire practice areas		X
Brake lining manufacturers, repairers or recyclers		X
Engine reconditioning workshops		X
Motor vehicle workshops		X
Port activities including dry docks or marine vessel maintenance facilities		X

Railway yards including goods-handling yards, workshops, refuelling facilities or maintenance areas		X
Service stations including retail or commercial refuelling facilities		X
Transport depots or yards including areas used for refuelling or the bulk storage of hazardous substances		X
Cemeteries and waste recycling, treatment and disposal	Y	N
Cemeteries		X
Drum or tank reconditioning or recycling		X
Landfill sites		X
Scrap yards including automotive dismantling, wrecking or scrap metal yards		X
Waste disposal to land (excluding where biosolids have been used as soil conditioners)		X
Waste recycling or waste or wastewater treatment		X
Any land that has been subject to the migration of hazardous substances from adjacent land in sufficient quantity that it could be a risk to human health or the environment		X
Any other land that has been subject to the intentional or accidental release of a hazardous substance in sufficient quantity that it could be a risk to human health or the environment		X

If you have answered yes to any of the above, the NES applies to the land. Please consult the NES and if you have any questions, contact the Planning Department.
